There isn't anything else which money can be put into than furnishes as good an investment as a fine diamond. To be sure it brings no income, but the enjoyment of its beauty. In a pin or ring, in an earring or stud it is in use all the time, but it doesn't deteriorate in value, and can be turned into money any time. We have just secured the agency for the greatest gas stove that has ever been made. Atmospheric stoves are used in the beautifully encased radiators. No chimneys are used as no odor is produced. They are four times as powerful as other gas stoves. The cost of the stove is \$100.00.

HOW TO PREVENT CROUP.

Some Reading That Will Prove Interesting to Young Mothers—How to Guard Against the Disease.

Croup is a terror to young mothers, and to those that contract it, the first symptom and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to a cold will catch it easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy. For it contains nothing injurious. For sale by J. James Wood, Druggist.

PAY YOUR TAX.

The Tax on Vehicles is All Right, Says the Court

The Court of Appeals has decided the case of Wood vs. the City of Covington, relating to the ordinance adopted in that city imposing a tax of \$2 upon vehicles of all kinds.

The Court holds that the ordinance is valid in so far as it relates to persons who ply the business of hiring their vehicles, but that it is void as to those who keep vehicles for their own private use.

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire and gave it to man. For this he was punished by being bound to a rock of Mount Caucasus and vultures were set upon him. They ate his liver. This grew again as fast as it was pecked away.

Are his bones still there? Is he still there? Is he a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtaxed, the bowel is clogged, they expand, become distended. The impurities back up on the liver. Then come the vultures—the torments of a diseased liver. Dr. Piero's Golden Medical Discovery is more than equal to the evil of dyspepsia. It is a great help to the system. There is no more need of suffering from dyspepsia than there is of hanging one's self.

WE'RE FOR AMERICA@AMERICANS!

THERE are 780,000,000 pennies in circulation in this country, and the public is absorbing them at the rate of 150,000 a day, which represents a daily profit to the Government of \$1,200. The little coin is becoming an important American institution.

The Covington Commonwealth admits that the Democrats are, now and then, capable of perpetrating an outrage. Hear it:

The Rardin-Calton case from Greenup is returning to plague the Democratic party. The Republicans in the House cite it as authority for the villainy they are planning—villainy as great but not justified by the outrage perpetrated on Rardin and on the people of Greenup."

In September, 1894, our exports of agricultural products constituted 65.64 per cent. of all exports. This year, in September, they formed but 60.81 per cent., a loss of 4.83 per cent. In September, 1892, they were 72.23 per cent., showing a loss this year of 11.72 per cent. In September, 1891, they were 77.98 per cent. of all exports, showing a loss of 17.07 for last September as compared with 1891. This gives farmers an idea of the manner in which the Free-traders help them to capture the markets of the world. In actual value this year's September loss was nearly 50 per cent., the shipments of agricultural products in September, 1891, being worth \$63,739,533 and this year in September only \$34,699,962, a decrease of \$29,039,581 in a month.

The Republican party! No wonder Americans love the name! No wonder that it is as dear to them as the Union itself. Its record is glorious. It cannot be repeated too often nor impressed too strongly on the minds of the rising generation, says the Republican League Leader of New York.

The Republican party is the mighty political power that saved the Union, that liberated the slave, that protected home industry and preserved the National credit. It upheld the arms of the martyred LINCOLN in the perilous period of the Civil War. It piloted the country safely through the stormy era of reconstruction, and by its wise, beneficent policy, restored the Union in fact as well as in name. It presented a solid front against financial vagaries and British Free-trade schemes. It has been associated in city, county and state with reform and progress. It is in earnest sympathy with progressive movements everywhere, rejoicing at the certainty that Ireland will attain home rule and Cuba will be free from the Spanish yoke.

But the Republican party does not rely upon its past record, glorious and honorable as is that page in the National history. It has not passed away or disbanded, as some Democrats said it would when the war was over and slavery was abolished.

It is nearly forty years since the Republican party made FREMONT its standard bearer, and nearly won a victory that might have averted the Civil War. But the party is still young in all that constitutes the vitality of political organizations.

The Republican party is equal to all emergencies that arise in the progress of our great country. The principles on which it is based are immortal and unchangeable. It is in sympathy with the noblest aspirations of the American people. It is essentially a National party, knowing no South or North, but glorying in a united people and working steadfastly for the advancement and welfare of our common country, one and indivisible.

HOBBS MEDICINE CO., Chicago, San Francisco.

ACCORDING to a careful resume of the five or six thousand applications made for office through Governor-elect BRADLEY, it is found that Lyon county so far leads the van in point of numbers. Nearly every town, big or little, in the state has from one to twenty-five place seekers.

THERE is a disposition on the part of the Democrats to hold CLEVELAND responsible for their misfortunes; and in a certain degree, says The Globe-Democrat, they are justifiable. It is well known that he has not done anything to strengthen the party that elected him, or to provide it with means of success. He has uniformly treated the advice and suggestions of its leading members with indifference, sometimes with contempt, and has insisted upon the privilege of doing as he pleased, regardless of consequences. In no case, has he deferred to the judgment of those who had the right, by position and experience, to counsel him with regard to public issues and interests. It is a notorious fact that instead of cultivating friendly relations with such men, he has taken pains to slight and snub them, and make it impossible for them to confer with him in a frank and reasonable way. His power has been exerted not so much to promote harmony and enthusiasm in the party as to produce discord and inkwarmness. He has refused to recognize the binding forces of platforms, or to be guided by the sentiments of the majority, and in various ways has manifested the qualities of a boss determined to have his own way and to subordinate the wishes of all others to his personal caprices and intentions.

The fact may be conceded that the President who has pursued this course has been actuated by honest motives and a firm belief in the superiority of his own wisdom; but the fact remains that his conduct has not been calculated to help his party in any respect. He has not hesitated to antagonize its doctrines and tendencies, and has not scrupled to denounce a bill passed by a large majority of its representatives in Congress as a measure of "perfidy and dishonesty." His treatment of certain vital questions has been in the line of the endorsement of Republican principles and policies—to his credit in point of intelligence and patriotism, but against the idea of party fealty and devotion. These things have given due provocation, it must be allowed, for Democratic criticism; and thus they have tended more or less to embarrass and injure the party. If he had pursued a different course, if he had chosen to be agreeable and conciliatory rather than arrogant and intimidating, it would have been better for the Democratic cause, undoubtedly; and to that extent and in that sense he is to be blamed by those who lament the recent disaster and its assurance of a similar result next year.

The reader of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its forms. That disease is called Catarrh. Catarrh is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Half a Cure is not sufficient. It is taken internally directly on the blood and mucous surfaces of the system, and in doing the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The powers of the body are increased in current health, so that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonies.

TWO KILLED,

And Two Others Seriously Wounded By Orville Eals.

A Kentucky Farmer Barricades His Dwelling and Defies Arrest.

A Posse Makes an Attack and Eals is Killed After Marching His Wife With a Hatchet—Terrible Tragedy in Bracken County, Kentucky.

SPRINGFIELD, Ky., Dec. 3.—A terrible tragedy is reported from the adjoining county of Bracken, wherein two persons were killed and two others seriously shot by Orville Eals, who was himself killed by a posse after he had killed his wife. Eals was a farmer living near Brownsville, and his wife deserted him for John Fields, a tenant on the place. Eals induced his wife to return, and also Fields, whom he shot on Tuesday, death ensuing the next day. Eals defied arrest and when they came has been described as trying to lose his life. Eals was well armed. He took refuge in a hut. A large posse came upon the hut Saturday night. When an attempt was made to attack it, Eals fired upon them from the window. It was deemed best to wait for daylight and Monday at dawn the attack was made. When the rush was made for the heavy timber Eals began firing. A man named McCombs fell mortally shot, dying in a few minutes, and two more were mortally wounded. Mrs. Eals lay the mutilated body of Mr. Eals almost nude and covered with ugly wounds, while nearby laid a bloody hatchet, with which she had been fighting. The posse had fired a fusilade of shots as it entered the house, and Eals was killed. The bodies of Eals and his wife were buried by the posse without the formality of an inquest.

LEXINGTON, Ky., Dec. 2.—General De Leon, the Spanish minister, received a cablegram Sunday afternoon which confirms the news printed in Sunday's papers of the repulse of Maximo Gomez, leader of the insurgent forces in the island of Cuba.

The insurgents are now near Delicias in the mountains of Camaguy, and have but little hope, he says, of getting together again for another campaign. FIENDISH WORK

A Description of the Recent Massacre in Baliburt.

Armenians Cruelly Butchered and Stripped of Their Possessions.

The Leaders Proclaimed Openly That They Had Orders From the Sultan to Exterminate Armenians and That Propriety was a Reward for Services.

NEW YORK. Dec. 2.—The Sun Sunday morning says: "The following description of scenes accompanying the recent massacres in the village of Baliburt, in Armenia, is contained in a letter received here from an eye witness. It was written toward the latter part of October."

"On the day, October 13, was the first day when the alarm of a general massacre began to spread. Saturday afternoon the dismal news of the advance of 500 armed Lazes reached us."

"Sunday about a thousand Turks of Baliburt and its vicinity joined the Laz rebels and began their attacks on the Armenian village. On Monday, October 14, the first attack was made on the village of Lushkoh, five or six miles from the town of Baliburt. There were about 70 Turkish women with pack horses for carrying away the wounded. The villagers of Lushkoh had taken refuge in the school building, trembling and despairing. The Lazs and others promptly began to seize the cattle and sheep of the Armenians, and after securing these they set fire to the village, rifled the houses and set on fire the buildings. Then they attacked the schoolhouse. The helpless Armenians inside, men, women and children, shrank under a hailstorm of bullets. It was dark night and many fell, killed and wounded."

"For God's sake, spare our lives and take all we have," cried the unfortunate people, but their cries for mercy seemed to more inflame the butchers. The schoolhouse was set on fire and men, women and children rushed out, trampling under their feet the dead and wounded.

"A more horrible scene was enacted in front of the schoolhouse. The infuriated Lazes and other marauders under the command of the most fanatical chieftains of the city and neighboring villages, surrounded their victims and began to murder them in cold blood. The son of Haji Khunni, a notorious robber, seized a young man, took off his clothes, ordered the Lazes to strip him, and the young man was shot dead on the spot. Others seized the brother of the first victim, and casting him down on the threshold of the schoolhouse, slaughtered him like a sheep and pierced his dead body with bayonets."

"Mousa, the son of Birinji, from Moushangari, jumped at Nabdil Aschalan, and, taking hold of him, exclaimed: 'Come here, dog of an infidel; I will show you what I will do to you.' I will show you, I will not do any longer like you.' Saying this, he plucked out the heart of his victim, and with several turns disengaged the unfortunate man. Thus the fiendish work of carnage was carried on with heartrending shrieks."

The leaders of the mob gave the command to separate the men and the women into separate groups under the walls. Five young men, the flour of the village, were selected as victims and burned alive before the eyes of their relatives. The women, wives of women of all their clothes, committing outrages on them, cutting their hair and spitting in their faces. They were not satisfied with outrages, but killed a girl 15 years old, several women and three children from the same year. They killed also Gudarina, the wife of Chavner Arakan, who was in an advanced state of pregnancy, and opened her abdomen with a most cruel ferocity. The scenes of horror were repeated in several other places in the same way and other villages. The Mohammedan women accompanying the horde of marauders carried away loads of plunder."

The Armenians had given no provocation for the massacre. The leaders proclaimed openly that they had orders from the Sultan to exterminate the Armenians, and were to have their property as a reward for their services to the government. It is impossible to give a correct estimate of the loss of life and property as many victims have been laid low and the inhabitants are missing. It is not necessary to dwell on the desecrations perpetrated in the churches and the outrages committed on women and young girls. It is known that one's heart bleeds at the state of things. The people of the vicinity live in a state of terror, and there are rumors of fresh massacres."

—*Judge Cooper to Read.*

FRANCISCO. Ky., Dec. 2.—Buntington, W. Va., Dec. 2.—About a month ago a new concern styled the "Northwest Commercial Agency" established itself in the city. The moving spirit was Victor B. Miller, who represented himself as a Chicago lawyer with wealthy connections. The object of the company was to collect bad debts, but they seem to have had no intention of turning over their collections to collectors. Creditors swooped down upon Mr. Mudge and his "consulting attorney," A. F. Groves, and the gentleman are now enjoying the city's hospitality on the hearing of embazement.

—*Bloody Fight at a Dance.*

CHICAGO. Ky., Dec. 2.—Buntington, W. Va., Dec. 2.—Frank John and Frank Lattry were both shot and probably fatally wounded. Frank Fuller, who shot them, was in turn clubbed unmercifully and is in a critical condition. Six men were injured in the fracas, one of whom in the dance hall was one of the worst. Blood covers the walls. Three of the desperadoes are in the county jail. Two have escaped. The cause of the trouble was the culmination of an old family feud.

—*Judge Cooper to Read.*

FRANCISCO. Ky., Dec. 2.—It is reported here on reliable authority that Judge John E. Cooper, of the Mt. Sterling circuit, will resign in a few days.

Judge Cooper is a man of great ability and is well liked by the public and the inhabitants are missing. It is not necessary to dwell on the desecrations perpetrated in the churches and the outrages committed on women and young girls. It is known that one's heart bleeds at the state of things. The people of the vicinity live in a state of terror, and there are rumors of fresh massacres."

—*Not a Mortal Death.*

BALTIMORE. Dec. 2.—Robert Janssen, aged 30, an employee of the Monuments and Chemical works, at Fairfield, Md., met a horrible death Sunday. He was making repairs to machinery which had fallen into a vat filled with nitric acid. He crawled out of the receptacle, and fell unconscious beside it. His clothing and chunks of flesh dropped from his body when the unfortunate man was picked up by his fellow workers. Death followed in a few minutes. Janssen came here six months ago from Germany.

—*A Steamer and Coal Barges Wrecked.*

PITTSBURGH. Pa., Dec. 2.—Sunday morning the Advance, owned Capt. Wm. Wood, and having in tow eight barges of coal belonging to the Advance Coal Co. struck on Sand creek here, about 10 miles from Pittsburgh. Five barges went to pieces on the rocks, and the steamer was badly strained that her seams opened and she sank until her boiler deck was below the water line. The balance of her tow is in bad shape, and with the steamer, will likely be lost unless assistance is had.

This gives to Florence Blythe, the dead capitalist's daughter, the estate, which is valued at \$4,000,000.

INDICTMENTS

Brought Against Members of the Amish Religious Sect in Komeko.

KOMEKO, Ind., Dec. 2.—Some twenty indictments have been brought against members of the religious sect known as Amish by the grand jury of this county. There is quite a large settlement of these people in this county, and the investigation of the Neubauer case brought to light many crimes among them are marrying without close relatives, the sabbath at midnight, mistreatment of children and other offenses which the Amish devotee and claim are not crimes according to their religion. They are a peculiar people. They believe only in the Old Testament, and believe that all state or national laws are contrary to the Bible. They believe when a man dies what should be planted over his grave. When they are told of their lawlessness they say the Bible is their guide, never shave or cut their hair, never wear buttons on their clothing, answer no questions and will not take an oath.

GETTING SERIOUS.

The Allied Powers Insist on a Firm Truce, Signed by the Sultan Granting The Vessels Passage Through the Dardanelles.

NEW YORK. Dec. 2.—The Herald's special cable from Vienna says: "The English government has agreed to permit the passage of extra vessels through the Dardanelles."

The English government has agreed to permit the passage of extra vessels through the Dardanelles, though they had threatened to take advantage of it.

The Turk party threaten to bring about a revolution if the Sultan gives way.

Russian and anti-English influences at the Yildiz Kloak are increasing.

The sultan has given the title of pasha to Hassan Unir, a well-known Anglo-Greek writer, and has also accorded him a seat in the Dardanelles.

The antagonism between the grand Vizier and Sir Philip Currie is increasing, while Germany is profiting by her good relations with the powers to play the part of the "honest broker."

NEW ORGANIZATION.

Northern Mineral Miners' Progressive Union of America.

IRON MOUNTAIN, Mich., Dec. 2.—The Northern Mineral Miners' Progressive Union of America has been organized here by delegates who claim representation of 10,000 iron and copper miners of Wisconsin, Michigan and Minnesota. The resolutions adopted endorse the eight-hour system, approve employment of miners, demand the election of mine inspectors by the vote of the people, and demand that the government employ the best experts instead of assessing the support of doctors employed by the mining companies.

ARMED FOR EMANCIPATION.

PORLAND, Ore., Dec. 2.—About a month ago a new concern styled the "Northwest Commercial Agency" established itself in the city. The moving spirit was Victor B. Miller, who represented himself as a Chicago lawyer with wealthy connections.

The object of the company was to collect bad debts, but they seem to have had no intention of turning over their collections to collectors. MAKING COPPER LIKE STEEL.

DETROIT, Mich., Dec. 2.—A man in the city discovered a secret art of tempering steel so that it may be utilized in place of steel for many purposes where corrosion puts steel at a disadvantage. He has made both cold and flat springs of great elasticity, has made good knife blades, and has made a steel which will melt itself and weld it to iron or steel. He says his process gives pure copper all the qualities which steel possesses when the secret process of tempering is employed. Trolley wheels made from tempered copper have outworn several sets of wheels made in the old way.

OFFICERS OF THE HOUSE OF REPRESENTATIVES.

WASHINGTON, Dec. 2.—The combined caucus of the house Saturday night unanimously tendered the speakership to Thomas B. Reed, of Maine. The other officers selected were: Caucus Leader, George W. Steele; Clerk, Alex McDevitt, of Pennsylvania; sergeant-at-arms, B. F. Russell, of Missouri; postmaster, J. C. McElroy, of Ohio; chaplain, Rev. H. N. Condon, of Michigan.

JOCKEYING

Is Abdul Hamid, the Butcher, With the Six Great Powers.

The Sultan is Personally Responsible for the Series of Massacres.

Abdul Hamid's Favor Given to Him by England—Speaker of Christians Charged on Systematically—The Sultan Using as a Reformer Meawhile.

LONDON, Dec. 2.—Neither the sultan nor the sultan to each of the powers having a second guardianship at Constantinople nor the prelature of paper reforms will quiet the rising of public wrath over the progress of a policy of extermination directed against the Christians of Asia Minor.

The sultan, for strong and decisive dealing with the sultan comes from conservatives and liberals alike. The conviction grows that Abdul Hamid is jockeying with the powers, and that the sultan's conduct to his obdurate and difficult attributes agrees with, but do not rule him. The speaker's Constantinople correspondent, who first directed attention to the Armenian outrages, has since come to recognize authority on the subject. He says that the sultan's conduct depends on the number of Christians he has to give up.

The massacres have been chiefly confined to these vilayets, the object being to so reduce the number of Christians as to give them no influence on the work of external proselytism. It is not possible as it is now possible for the Turkish government to carry out its intentions to carry it on.

Both the Kurds and the troops are acting under the orders of the authorities in their work of pillage, rapine and murder. No one can tell how many thousands persons were massacred between November 18 and 25, while the Sultan was posing before Europe as being desirous of effecting reforms, and as being benevolently inclined toward the masses. Commissioned by its correspondents, the speaker says that among the brutal murderers who are engaged in wiping out the Armenians there is not one who is brutal and criminal as this sultan, Abdul Hamid, whose very existence is a curse to the world.

Can the civilized world, the paper asks, look on with no stronger feeling than tepid disapproval while the monster who owes his power to the protection of Great Britain, consummates a crime that is almost without parallel?

MURDERER HOLMES

Retired as a New Trial and sentenced to Death—Gov. Hastings Put in the Day.

PHILADELPHIA, Dec. 2.—Herman W. Mudgett, alias H. H. Holmes, who was convicted of murdering the deacon in the basement of Benjamin F. Pease, on Saturday morning in the court of Oyer and Terminer, refused a new trial and sentenced to be hanged.

The opinion denying the accused a new trial was delivered by the chief justice, W. H. Arnald, who heard the application for a new trial. Judge Arnold then pronounced the death sentence.

Holmes, who had been brought into the court to hear the opinion, was affected by the sentence and when Judge Arnold in his deliberations sentenced him to be hanged by the neck until dead, "the air of apparent indifference which was so manifest throughout the celebrated trial," he said.

Holmes was then returned to the county prison and a death watch was placed over him. The date of execution will be fixed by Gov. Hastings.

It is believed that the case will be appealed to the supreme court.
